RG104 E-1 Box 174

Treasury Department,

BUREAU OF THE MINT,

Washington, D. C., December 2, 1891.

The Superintendent, U. S. Mint,

Philadelphia, Pa.

Sir:

Replying to your letter of yesterday, relative to the bronze medals for the Columbian Exposition, I would state that I consider fifty cents a very low price for a bronze medal three inches in diameter.

One question which we must consider is the facilities which we have for striking 25,000 bronze medals. Of course, these medals will have to be struck in high relief, and should be well executed so as to reflect credit both upon the mint and the Exposition.

I would like to know how long it will take the mint to prepare, strike and pack 25,000 bronze medals of the character described.

Very respectfully,

E. O. Leech

Director.
